

Under the AAA Proposal, the Districts and Associations would be expected to assimilate the "New B Teams", which will likely lead to the following forecast for full implementation, date to be determined.

Once the AAA and AA Leagues are fully functional, Ottawa will probably develop another A League, containing a limited number of teams, which draw from the local B populations. The AAA Committee did not include this in the proposal, as there are no guarantees on the number of teams that would be offered. It may take a couple of years for the need for such a League to manifest itself.
